Report on the Visit of Middle School Moonbal Organized by NSS

In view of its outreach programme schedule the NSS Unit of Govt. Degree College Handwara organized a physical visit of the students of Middle School Moonbal on 11/12/2024. This event provided an enriching opportunity for the students to explore the various departments of the college and interact with faculty members. The program aimed to foster interest in academic fields and promote a sense of social responsibility among young learners.

The event commenced with the opening remarks by the esteemed Principal of the College, Prof. G.R. Ganai. In his address, Prof. Ganai emphasized the importance of such outreach programs in bridging the gap between educational institutions and local communities. He encouraged the students to make the most of this visit by engaging with the various academic disciplines and exploring the opportunities they offer. His words set a positive tone for the day and inspired the students to develop a passion for learning.

Dr. Shahnaz Mohiuddin, the NSS Programme Officer, addressed the gathering next. Dr. Mohiuddin spoke about the role of the National Service Scheme (NSS) in fostering social responsibility and personal development among students. He highlighted the importance of community engagement and

encouraged the students of Middle School Moonbal to take active part in similar outreach activities in the future

The students of Middle School Moonbal were taken on a tour of several departments in the college. The visits were both educational and interactive.

Botany Department: Students explored the diverse plant life and were introduced to various aspects of plant biology. They learned about different species, plant functions, and environmental conservation efforts. In the department of Zoology Department: The students had the chance to observe various specimens and learn about the human physiology. The students then visited the Chemistry lab where they got a hands-on experience of different chemical reactions and laboratory safety procedures. The faculty members explained the significance of chemistry in everyday life.

The students were given an introduction to the world of computers, including the basics of programming, hardware, and software applications. This session sparked interest in the field of technology. The final stop on the tour was the college library. The students were introduced to

various resources available for research and reading, and they learned about the importance of reading and academic research in higher education.

After the educational tours, the students engaged in a friendly cricket match. This activity provided a fun break and helped the students bond with one another and with the college staff. The match was full of enthusiasm, and it showcased the students' sporting spirit and teamwork.

As part of the outreach program, the college also distributed winter stocks among the students of Middle School Moonbal. The gesture was warmly appreciated by the students and their teachers, as it helped ensure the well-being of the students during the colder months. This act of kindness

highlighted the college's commitment to social welfare and community support

The event concluded with a vote of thanks delivered by Prof. G.N. Najar NSS Programme officer . Prof. Nagar expressed gratitude to the students, faculty members, and organizers for making the event a success. He particularly thanked the Middle School Moonbal for their active participation and expressed hope that the students would carry forward the knowledge and experiences they gained during the visit.

The visit of the Middle School Moonbal to Govt Degree College Handwara was a significant outreach program that fostered educational awareness, community engagement, and student development. The event allowed the students to experience the diverse academic disciplines offered at the college while also providing them with a platform for social interaction and sporting activity. The college looks forward to continuing such initiatives, strengthening its ties with the local community, and inspiring the next generation of learners.
