Report on Chinar Day Observance at Children's Park Handwara

The Department of Environmental Science, GDC Handwara in collaboration with the Department of Floriculture Handwara, observed Chinar Day on 15th of March 2025. The event aimed to promote the conservation and plantation of Chinar trees a significant part of the region's cultural and environmental heritage.

As part of the observance, Chinar saplings were planted at Children's Park, Handwara, with the active participation of students and officials. The event was attended by Dr. Gh nabi Najar, HoD Environmental Science GDC Handwara, along with officials from the Floriculture Department, Handwara. Their presence and insights highlighted the importance of afforestation and the ecological significance of the Chinar tree.

During the event, speakers emphasized the need to preserve and expand Chinar plantations due to their aesthetic, ecological and historical significance. The Department of Floriculture officials provided valuable guidance on the proper care and maintenance of Chinar trees to ensure their healthy growth and sustainability.

The observance of Chinar Day concluded with a collective pledge to continue efforts toward environmental conservation and to encourage future generations to participate in green initiatives.
